

Are there operational and managerial employees who both need to have either the Basic or VOL diploma? You can also send them together to training. The first day, the focus will be on VCA BASIS, including the exam for the operational employees, the managers will add an extra half day the next day for an in-depth study focusing on the responsibilities and tasks within the VCA policy. They will take their exam at the end of the morning.

Content first day:

- Legislation
- Danger
- risks and accidents
- Procedures
- instructions and signalling
- Hazardous substances
- Burning & explosion
- Machines & tools
- Moving loads
- Specific activities
- Working at height
- Electricity
- Ergonomics
- PPE

Content second, half day:

- Situation of regulations and controls
- VCA management systems
- Temporary agency work
- Electricity and Radiation
- responsibilities of operational managers
- Exercises on exam questions

For companies that are VCA certified, obtaining the VCA diplomas is a must question (see VCA 2017 / 6.0 questions 3.1 and 3.2)

The aim of this VCA Combi training and exam is to provide all your operational people and the managers within your organization with the necessary baggage and a 10-year valid diploma for the respective positions over a short period of time.

	Dutch or English (other language on request)
